

Neighbourhood Watch in Ku-ring-gai and Hornsby

eNewsletter # 352 - 09 July 2018

This weekly eNewsletter is compiled by Neighbourhood Watch volunteers as a service for residents in Ku-ring-gai and Hornsby council areas. The eNewsletter is a new type of Neighbourhood Watch; utilising the available technology to keep people more connected and up-to-date with local crime and safety issues.

The eNewsletter includes a selection of posts from the [Kuring-gai PAC Facebook page](#) (also known as 'eyewatch'), primarily for those not familiar with Facebook. We add anything interesting from a Neighbourhood Watch point-of-view - this could be a local newspaper article, a roadwork warning, crime prevention tip(s), an upcoming Neighbourhood Watch meeting, Q&As from residents, or an item from an other Police command ("Crooks know no boundaries!").

🔔 Have you seen anything we should share with the community? [Please email](#) our NHW in Ku-ring-gai & Hornsby volunteers. We do value your contributions. Thank you for your support.

🔔 Please feel free to [share/forward this eNewsletter](#) with your friends, family, colleagues and neighbours.

05 July, from the NRMA: Where should I mount my mobile phone or GPS?

As of 1 July, NSW drivers can be charged for using a mobile phone when driving via camera detection. If you use a GPS system or mobile whilst driving it must be mounted in a fit-for-purpose cradle and be operated without touching any part of the phone.

Recommended mounting positions

Mounting the screen as far down on the windscreen as possible will limit obstructions to the drivers' field of view. Ideally, the screen should be mounted towards the centre of the windscreen, to the left of the driver. If this is not practicable, the next best location is in the far right, bottom corner of the windscreen. These two locations are marked as locations 1 and 2 respectively in Figure 1 below.

From the 'Our 20 Favourite Crime Prevention Tips for Travel':

Tip #7: DO NOT CHANGE THE ANSWERING-MACHINE MESSAGE to indicate you are away. Similarly, don't post on Social Media that you are going away; no check-ins, no cruise ship as your public profile picture, no sharing of travel photos – wait until you return. Keep your travel SECRET! Consider NOT setting up a holiday auto-response email.

Tip #8: IF YOU DROP ANYTHING on train tracks, ask staff for assistance, or use the emergency help point, or phone **CityRail's Security Hotline 9379 4444**. If you go onto railway tracks, it's not only incredibly dangerous, it's a criminal offence!

Tip #9: IF YOU FEEL INTIMIDATED by someone with you in a train carriage, jump out at the next exit, go down a carriage and hop back on.

Tip #10: TEXT TO A FRIEND OR RELATIVE, the Uber/taxi number, driver's name, driver's licence number, and to/from locations. DISCRETELY (and only if possible), send photo(s).

Tip #11: WHEN WAITING AT NIGHT, stand at the platform "Night safe" area (indicated in blue) to make sure you board the train at the carriage closest to the guard's compartment. Wait at a bus stop in a well-lit area. If possible, always wait near other people rather than on your own. Sit near the bus driver, especially if the bus is relatively empty or at night. Only use travel services and taxis recommended by the hotel.

09 July, from Crime Stoppers: INFORMATION FOR YOUNG PEOPLE...

Most families have arguments and it's pretty normal for family members not to get along at times. But if an adult in your family is hurting, humiliating, threatening or frightening you, this could be domestic violence. The violence might also be towards your mother, father, siblings or other members of your family. If you're living in a house where there is domestic violence, remember:

- don't put yourself in danger to try and protect someone else
 - no matter what the circumstances, violence is never justified and is never your fault.
- The only person who can be blamed for the violence is the person who is being violent
- you are not alone. There are people who can help you.

You have the right to be safe, cared for and live in a place where you feel loved and accepted. If (in your home) there is violence and abuse, there are things you can do to

get help.

When domestic violence is happening in your home you should call Police on Triple Zero (000). Please give your address and stay on the line to answer the questions the operator asks you. If you want to talk to someone about what is happening you can call:

He claimed he was from Telstra and there was a problem with the Lindfield exchange and that her computer had been hacked. He then stated he would deposit \$99,000 into her account, which she was told she needed to transfer into another account. Luckily the woman realised it was a scam and didn't make the transfer. Police are investigating.

06 July, from the Australian Federal Police: SCAM ALERT

Scammers have set up a clone of the myGov website to trick you into sharing your login and bank account details. 06 July, from 9News.com.au: Two teenagers killed by their father in West Pennant Hills shooting

The father who shot dead his two children in their north-west Sydney home “premeditated and planned” the execution-style killings during a long-running custody battle with his estranged wife. John Edwards shot dead his 15-year-old son Jack and daughter Jennifer, 13, in their bedrooms at the home they shared with mum Olga in West Pennant Hills late yesterday afternoon. He then drove to an address in Normanhurst, five kilometres away, where he turned the gun on himself.

Hi everyone, I found a watch while walking along the road on Hesperus Street, Pymble. If anyone has misplaced/lost a watch, please send me a private message so I can get it back to you. Thanks!

04 July, from Cop Humour Australia:

HOW TO AVOID BEING DONE BY A SPEED CAMERA

1. Do a high speed sideways skid as you pass the speed camera. It won't be able to see your registration plates.
2. Paint the word 'ambulance' on your car.
3. Wear a teaspoon in your top pocket. The flash from the speed camera will bounce off the teaspoon, causing the photo to come out all white.
4. Duck under your steering wheel when you pass the speed camera. If you can't see it, it can't see you.
5. As you pass the speed camera, wind down your window and shout out the phrase: "What a lovely holiday." You'll be mistaken for a tourist and won't get a ticket.
6. Play the speed camera at its own game by taking a photo of it. It will think you're also a speed camera and let you on your way.
7. Have your passenger dress as a burglar, put a gun to your head and shout at you to drive faster. As you pass the speed camera, gesture that you're speeding under duress and there's nothing you can do.
8. Disguise your car as a horse.

04 July, from 7News Sydney: The blood service is making an urgent call for people with O-negative blood to make a donation.

Their reserves are down to just a two-day supply because of a drop-off in donor numbers due to cold and flu symptoms.

04 July, from NSW Government: Defamation laws may soon get a rewrite to include trolling, digital bullying and misrepresentation on social media.

A NSW review advised a cyber-age reboot for laws across the country to be more tech-savvy, so they strike the right balance between freedom of expression and protecting a person's reputation.

03 July, from Firefighting Australia:  Research has revealed that 53% of children charge their phone or tablet either on their bed or under their pillow.

This is can be extremely dangerous. The heat generated cannot dissipate and the charger will become hotter and hotter. The likely result is that the pillow/bed will catch fire –placing the child (as well as everyone else in the property) in great danger. Think....where do you & your family charge your moblie phone?
