

## Neighbourhood Watch in Ku-ring-gai and Hornsby eNewsletter #548 - 12 April 2022

This weekly eNewsletter is compiled by Neighbourhood Watch volunteers as a service for residents in Ku-ring-gai and Hornsby council areas. The eNewsletter is a new type of Neighbourhood Watch; utilising the available technology to keep people more connected and up-to-date with local crime and safety issues.

The eNewsletter includes a selection of posts from our local police at the [Ku-ring-gai PAC Facebook page](#) (also known as 'eyewatch'), primarily for those not familiar with Facebook. We add anything interesting from a Neighbourhood Watch point-of-view - this could be a local newspaper article, a roadwork warning, crime prevention tip(s), an upcoming Neighbourhood Watch meeting, Q&As from residents, or an item from another Police command ("Crooks know no boundaries!").

🚗 Have you seen anything we should share with the community? [Please email](#) our NHW in Ku-ring-gai & Hornsby volunteers. We do value your contributions and thank you for your support.

🚗 Please feel free to [share/forward this eNewsletter](#) with your friends, family, colleagues and neighbours.

### **12 April, from Ku-ring-gai command: You're heading away on holidays and the roads are busy.**

You're wanting a snack and the chips and chocolate are being passed around the car

**IS IT ILLEGAL TO EAT OR DRINK WHEN DRIVING?**

**CAN I GET A FINE FOR EATING A PIE, A HAMBURGER OR DRINKING A COFFEE WHILE DRIVING?**

While there is no specific fine for eating or drinking (non-alcoholic drinks) when driving, there is however an offence of, 'Drive without proper control of vehicle'.

Some examples of this may be;

- Controlling the vehicle's steering wheel with your knees or holding food in one hand while driving with the other.

- Holding a coffee in one hand and a cigarette in the other while driving with a couple of fingers on the wheel.

If found that the driver's eating or drinking while driving caused distraction to the driver resulting in them having a collision, the offence of Negligent Drive could be imposed.

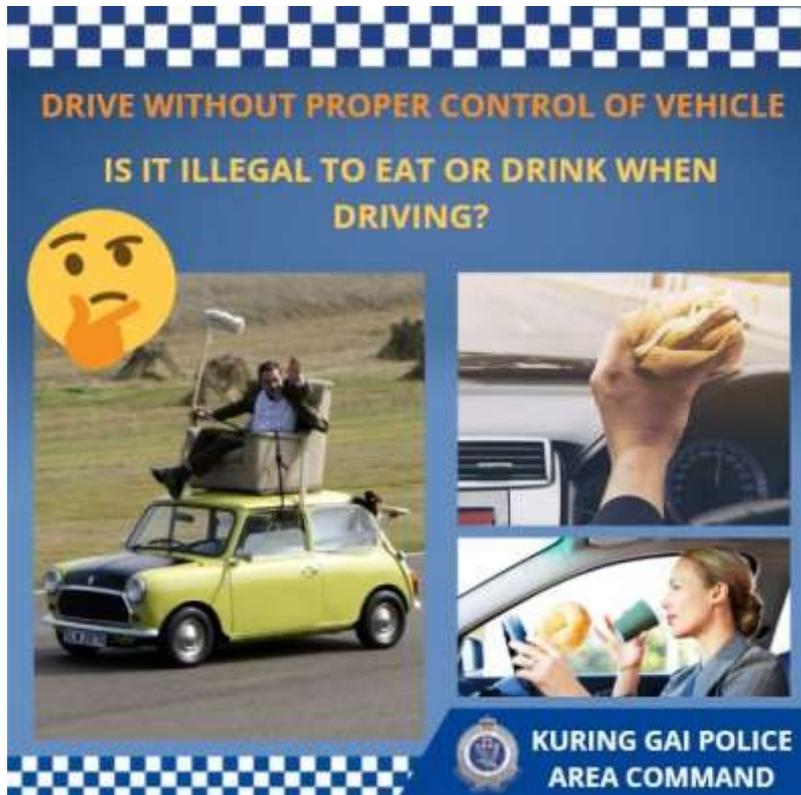

An example here could be the driver dropping their coffee or food with the driver being distracted while bending down to pick it up, perhaps resulting in a collision.

Penalties are:

- \* Drive without proper control of vehicle - \$469 and 3 demerit points
- \* Drive without proper control of vehicle (in school zone) - \$587 and 4 demerit points

REMEMBER, DOUBLE DEMERITS APPLY THIS EASTER WEEKEND AND ANZAC WEEKEND

## Omicron and safe signing of legal documents

**By** Cecilia Castle,  
Castle Lawyers at Asquith

OMICRON has stricken the world without warning, and there seems to be no relief in sight.

Governments have become averse to lockdowns, and businesses have largely been left to fend for themselves as best they can. However, legislation initially introduced on a temporary basis to deal with legal and business documents during Covid has now been made permanent.

Lawyers have taken advantage of this legislation to ensure the safety of their clients and staff.

The Electronic Transactions Amendment (Remote Witnessing) Bill 2021 provides for the remote witnessing of legal documents to avoid the risk of face to face contact when signing.

This means that legal and busi-

ness documents can continue to be signed and witnessed remotely by video link. Remote signing entails signing and witnessing documents by video link in real time.

Once signed, the document is delivered to the witness for them to affix their signature. The witness must be reasonably satisfied that they are signing the same document they witnessed being signed by video link, usually through identical copies held by them.

There are two exceptions to the remote witnessing legislation. The first is Notary Public documents, which relate to foreign jurisdictions. The second is Divorce documents, although other family law documents remain eligible to be signed remotely under the new legislation.

The new, permanent legislation provides choice and flexibility to businesses, vulnerable or disabled members of the community, and greatly benefits rural and regional communities.

## Love your neighbour through mediation dispute resolution

By Cecilia Casella,  
Cecilia Lawyers at Aquatic

MULTIHURDLE disputes can arise in relation to numerous issues including housing, tenor and neighbouring regulations issues but

to name a few. Disputes can also arise in other areas of life, such as family, workplace conflict, or debt. While states have not been able to be resolved through direct economic reaction, seek and cost effective alternatives are required.

Community Justice Centres are a NSW government initiative to assist with dispute resolution in many areas of life. The service is free, informal, confidential, and

there are no waiting lists. The service deals with disputes through mediation, an informal problem-solving process conducted by professional mediators that assist the parties reach mutually acceptable solutions.

Mediators do not take sides, and cannot make a decision about an outcome. Their role is to facilitate parties hearing what each other has to say, endeavour to create pathways to resolve issues, stay on

track, and help parties come to an agreement wherever possible. The Community Justice Centres mediate a massive rate of around 80% to a positive indication of parties being able to resolve most disputes of whatever nature before conflicts escalate. Key to success is a willingness to work cooperatively towards mutually acceptable outcomes.

Currently all Community Justice Centres are conducting medi-

ation via phone or video link due to Covid restrictions. The nearest centre in Sydney is located in Parramatta. More information can be obtained through their website or by calling them on 1800 888 777.
